## Our journey to a green future. #Proceeding with responsibility.

### Senior Accountant

**Location:** | Milan |  
**Job/ Business:** Full-time employee, Energy  
**Company:** VERBUND Green Power Italia S.R.L.

Apply now!

As Austria's leading energy company, we rely on the power of water, wind and sun as well as future technologies like no other in Europe. In doing so, we are building on green hydrogen as a technology of the future.

VERBUND Green Power Italia has made its business to actively improve the future with renewable energies and to contribute its share to the energy transition. The primary goal is therefore the expansion and increased use of photovoltaics and wind power.

**Strengthen our team in the department Renewable Energies.** Get involved!

#### This can only be done with you:

- Manage the general ledger and prepare the month-end and year-end-statements, handle audit requests and communicate with the headquarter in Vienna
- Perform reconciliations (e.g. intercompany balances) and assess and check business transactions and postings
- Being responsible for tax and compliance: calculate the corporate income tax and deferred tax, work with tax consultants on tax declarations/payments
- Manage AP/AR and procurement: process incoming/outgoing invoices, create non-project purchase requests and monitor and support the junior accountant
- Administer SAP master data and analytical accounting (WBS, statistical orders, cost centers); provide quarterly P&L reporting for Italian entities and track budget vs. actual for in-construction projects

#### With us you will receive:

- The opportunity to actively participate in the energy transition through your actions
- A structured induction phase and numerous benefits
- An extensive internal training program and annual employee appraisals

**Entry:** as soon as possible

Please submit your application documents in English

#### What you bring to the table:

- Degree in administration, finance or accounting, preferably with professional experience in accounting and financial controlling
- Minimum 5 years of experience in accounting and financial controlling departments
- Experience with Discounted Cash Flow valuation models is a plus
- Expertise in MS-Office, particularly Excel, and in SAP tools
- Good knowledge of English (written and spoken)

Your analytical skills and accuracy in dealing with figures and your self-confident approach combined with a high degree of dedication to working effectively and independently convince us. Your strong communication skills, your team spirit and your willingness to travel within the first year completes your profile.
